MANOHAR R

Email ID: manohar.r19@outlook.com   **Phone No:** +91 7349037416

Portfolio: https://portfolio-manu19.web.app/

Professional Summary

- Senior Software Developer with **4 years** of hands-on experience and expertise in **Java development**, collaborating with teams to design, develop, and test high-quality **Java applications**.
- Proven expertise in **Java-based projects**, with proficiency in **Spring Framework**, **Spring Boot**. Demonstrates strong **problem-solving skills** and effective **coding practices**.
- Skilled in **analyzing** and **debugging code** to identify and resolve software defects, ensuring smooth application functionality.
- **Collaborative team player**, experienced in working with cross-functional teams to deliver robust software solutions.
- Experience in developing **RESTful web services**, integrating third-party APIs, and implementing **microservices architecture**.
- Strong experience in the **Telecom BSS/OSS domain**, building microservices for provisioning, onboarding, asset tracking, SIM lifecycle, and order management.
- Committed to **continuous learning** and staying updated with emerging technologies and industry trends.

Technical Skills

- **Language**: Java (Java 8, Core Java), J2EE
- **Frameworks:** Spring Framework (Spring Boot)
- **Web Technologies**: HTML, CSS
- **Database**: MySQL
- **Version Control**: Git, GitHub, GitLab, GitHub Desktop
- **Build Tools**: Maven
- **Containerization & Deployment:** Docker, Kubernetes, Rancher
- **IDE**: Eclipse IDE, IntelliJ IDE, VS Code

Professional Timeline

Company name	**:** SLK Software
Location	**:** Bangalore, Karnataka, India
Role	**:** Software Developer (Java)
Duration	**:** From 09/2021 To 04/2024

Project Title: Nepis to Conjure (Client: Voya)

Description: Addressed vulnerabilities and enhanced security in the existing Nepis system by implementing **CyberArk Central Credentials Provider (CCP)** for Docker, JBoss, and Batch applications, ensuring seamless application behavior.

Roles and Responsibilities:

- **Implemented CyberArk Central Credentials Provider (CCP)** for Java applications, enhancing security while maintaining application behavior and logic.
- **Collaborated closely with stakeholders**, including business analysts and system architects, to analyze the existing codebase and define migration strategies

Manohar R

Company name	**:** 6D Technologies
Location	**:** Bangalore, Karnataka, India
Role	**:** Senior Software Developer (Java)
Duration	**:** From 07/2024 To present

Project Title: Enterprise Asset, Inventory, and Order Management System (Client: Cellcard)

Description: Working on a large-scale telecom digital platform for Cellcard handling customer onboarding, SIM lifecycle, provisioning, inventory management, recharge flows, and partner integrations. The system is built on microservices architecture with high-volume transactions.

Roles and Responsibilities:

- Developing and enhancing Spring Boot microservices for **onboarding**, **SIM lifecycle**, **provisioning**, **inventory**, and **order management modules**.
- Built **scheduler-based jobs** for batch operations like product updates, SIM status refresh, and data sync.
- Designed and integrated **Jasper Reports**, including tables, sub-reports, and dynamic datasets.
- Developed and supported **Kafka-driven workflows** while working closely with the **implementation team** to analyze logs, identify root causes, and ensure timely issue resolution.

- -

Personal Project

- **E-commerce Website:** Developed a full-fledged e-commerce platform using Java, Spring Boot, Angular, and MySQL, with features including user authentication, product catalog, shopping cart, and order processing. GitHub Repository: Click here
- **Weather Forecast Application:** Created a weather forecast application using Java, Spring Boot, Spring MVC, and Bootstrap, allowing users to retrieve current weather forecasts for cities worldwide. GitHub Repository: Click here

Certifications:

- Full-Stack Web Development Certificate | SLK Software | December 2021
- Angular (Basic) | Hacker Rank | February 2022 | Click here
- Responsive Web Design | freeCodeCamp | May 2022 | Click here
- Spring Boot 3, Spring 6 | Udemy | November 2023 | Click here
- Angular - The Complete Guide | Udemy | November 2023 | Click here

Education Summary

Institution	Degree Name	Specialization	Year of Passing	CGPA/Percentage
BIET Davangere	B.E	Computer Science	08/2021	7.89 CGPA
